Feb 22 2022

My name is Jeffrey Ohrt - some of you know me personally, some professionally, most don't know me at all.

None of you know what is about to unfold.

I have released my circumstances to the media today and this is a polite heads up to what is happening.

In March and April of 2017 I was human trafficked, sex trafficked, kidnapped and held in Beach Meadows Nova Scotia for nearly 2 years by one of the most well respected pillars of your community - my aunt.

I was forced to care for my Uncle, a man with advanced Huntington's, under the threat he would be killed if I left or said anything.

My aunt, the same aunt that did this to me, was being tortured by other members of my family - they have always been this violent - it is the beginning of how I spent 25 years hunting physical and sexual predators for my employers. I have done so in 18 countries over a quarter century.

My aunt did not get what she wanted - the people torturing her did not get what they wanted - everything escalated and led to one of the most horrific sex crimes in modern times - against me. It is the second time these people have done this to me. Once as a child - once as an adult. You can read about David Reimer, the only other published account of injuries like mine. https://en.wikipedia.org/wiki/David_Reimer

I am dying from the accumulated injuries - most more severe than David Reimer.

As unbelievable as this initially sounds - it is both simpler and worse than whatever you are imagining.

It is also NOT why I am writing you today - it is simply the context of my average. day.

I am in the last days or weeks of my life. I have protected my records with a Dying Declaration and I have attached a document explaining how to access it, if you wish to confirm that I have, in fact, had the abhorrent interactions with the Liverpool RCMP that I have described in my Serious Incident Response Team (SIRT) and RCMP Major Crimes applications. NONE of this is why I am writing you today.

By-Law is only cursorily aware of why I am dying. One of the other issues I am dealing with By Law is quite aware of and have, to date, conducted themselves in exactly the professional manner the Region of Queens would want.

This is why I am writing you today.

Randy Wambolt is a violent sociopath and one of two wife beaters (one traditional, and Randy - a violent emotional, financial batterer of women including his wife) that live in the building I live in.

I chose to live at 98 Union Street - not knowing the violence or history - selecting it because it was across from the Funeral Home - which as you now understand - should occupy almost all of my time.

I and my friends - those helping me with my end of life issues during but unrelated to COVID - have been assaulted with and without weapons by Randy since Sep 2020. Most of what you will want to know about this situation is also in my Dying Declaration.

<https://github.com/jeffohrt/DieDec-Randy>

I have tried dealing with Randy's family, I have filed RCMP reports, I have tried the Peace Bond process.

These events angered Randy so much - that after months of torturing his wife to force his son to stop helping me, Randy threatened 2 mass shootings; April 9th and May 29th 2021.

The RCMP mishandling of that led to the SIRT documents. They are all in the Dying Declaration.

Randy tortured his wife publicly for months to prevent his son from testifying (subpoenaed witness) and upon hearing my courtroom testimony about my end of life issues - immediately began trying to end my life using that medical information.

Randy spent 3 months trying to trigger the seizures that will kill me - it has cost me the use of my right hand. He learned of the seizures when I testified on July 22nd, 2021. He began July 23rd and continued until November 2021. He recruited another tenant to help try to kill me.

Like everything else - it's in the Dying Declaration, SIRT and RCMP Major Crimes have been notified. No-one is doing anything.

I have been assaulted and worse, with and without weapons for more than 18 months - more than my original captivity in Beach Meadows.

In January 2022, in the middle of 2 weeks without hot water because of Randy's sabotage of my apartment, I wrote By-Law asking for help and warning them it is extremely violent in my building.

I wrote Burt Long, the property owner, after confirming with his parents, my landlords, that they had brought him up to speed.

Burt's response was Form D - notifying me that I am being evicted. And so we are clear - Form D is a threat - not an eviction. Burt chose to threaten a dying rape victim because he wrote and asked for help to stop the daily assaults in his building. Burt will have excuses - everyone has excuses - but he's also done nothing to protect me under the requirements of the Residential Tenancy Act - that guarantees me a safe, clean rental property free of harassment.

I filed Form J - the formal request for a Tenancy Board Investigation on Feb 16th. It took 10 days of lawyers and trips to Bridgewater to do so. It is over 100 pages in length - that's how much has happened. That doesn't include courtroom testimony or photographs.

Fearing my pipes would freeze as they had in January, I left my home for the last 4 days, going to friends who are equipped for power outages and frozen pipes.. I returned this morning. The first morning since Burt was legally served the formal paperwork, requesting the Tenancy Board do what I asked By Law to do in January.

I did not make it to my apartment.

My equipment and tools had been thrown in the trash while I was gone - as has been done many times throughout the documentation, paperwork, police reports and courtroom testimony.. As I retrieved them, at 7:45 am, I was being yelled at and threatened from an upstairs window.

Within minutes - every tenant in the building - gathered outside my door in groups of 2s and 3s to swear at and threaten me through the door.

This is the violence I warned By Law of in January.

This is why I am writing the MLA, the Mayor, the Mayor's Office and the Councillors for all 7 Districts. My issues touch almost every one of you and your constituents.

Form J and all related and supporting documents are in the Dying Declaration.

You needed to know all this - to understand what I am writing to ask :

I would like By-Law to carry out the requests I made in mid January. I would like By-Law to bring as many of you as are interested in seeing how a rape and murder victim is being treated in his last days by the constituents you represent who believe him to be a "welfare recipient" like everyone else at 98 Union street.

I am not on welfare. I am dying. I am living on the last dollars of an inheritance I received.

I would like the MLA, the MLA's office, the Mayor, the Mayor's office and the Councillors for the 7 Districts to come see how people on Welfare are being forced to live. How they are being preyed upon by others - like Randy.

I would like you all to come see the violence where I live - so you can judge the one statement that no one seems to be able to wrap their heads around.

I was beaten into brain damage that makes it impossible to threaten me in the manner I am being threatened.

This situation will continue to spiral outward, with ever greater acts of violence until I am killed or I die from seizures starved and beaten into me by the last group of predators to try this exact thing.

I don't require meetings or discussions.

I wish only that By Law not have to come to this property alone.

I wish only that I receive formal paperwork that indicates what steps have been taken to protect me in my last days.

I wish only to be left alone.
